

Status of 2010 OCONUS Action Items

Steve Goodman
NOAA/NESDIS GOES-R Program Office

OCONUS Proving Ground Meeting

Juneau, Alaska
July 26-28, 2011

OCONUS Action Items (1 of 3)

Actionee	Action Item	Status	Detailed Status
Weyman, Jim	PAC to pick a NPP product(s) to start with and provide draft proposal to Bonnie	Closed	20110608 - Businger provided updated proposal to Reed - sent to PGEB for 2nd review 20110627. Goodman is putting antenna purchase on hold for now, demonstration should be able to continue using data from AK.
Weyman, Jim	PAC to set up telecom for mid-September to discuss proposal	Closed	20110608 - Businger provided updated proposal to Reed - sent to PGEB for 2nd review 20110627. Goodman is putting antenna purchase on hold for now, demonstration should be able to continue using data from AK.
Weyman, Jim	PAC to identify infrastructure gaps (and include in proposal if necessary)	Closed	20110608 - Businger provided updated proposal to Reed - sent to PGEB for 2nd review 20110627. Infrastructure gaps were identified (antenna) however, Goodman is putting antenna purchase on hold for now, demonstration should be able to continue using data from AK.
Reynolds, Dick	Dick to get Raymond and Eric on PG All Hands	Closed	Done
Weyman, Jim	Jim to identify POC from JT	Closed	Jim identified Falvey, Robert CIV NMFC_JTWC, NJ3" <robert.falvey@navy.mil> Update from DeMaria 20110630: I don't know if Jim followed up on this before he retired, but we have been in contact with several JT representatives with regard to demonstrating experimental typhoon products in 2011 that were are developed under HFIP and GOES-R3 support. If the board agrees, I could follow up and ask for a JT representative for the Pac proving ground as well.

OCONUS Action Items (2 of 3)

Actionee	Action Item	Status	Detailed Status
			<p>Jim Identified Derek Wroe, however, visit was postponed in 2010.</p> <p>Update from DeMaria 20110630: I followed up on this with NHC late last summer after the 2010 OCONUS meeting in Hawaii. NHC was not ready to host another visitor for the proving ground because they already filled all visitor slots through their HFIP visiting scientist program. We might be in the same boat again this year unless travel funds are identified quickly, CPHC has someone available and NHC can host the visitor.</p> <p>Update from DeMaria 20110705: I sent a message to NHC and it turns out that Derek is already scheduled to visit NHC for a week this season as part of CPHC's back-up role for forecasting east Pacific tropical cyclones. Mike Brennan, one of NHC's PG focal points, will be working with Derek on the PG products during his visit. Thus, I think we are in good shape for 2011.</p>
Weyman, Jim	Jim to identify forecaster to potentially sent to NHC to observe NHC Hurricane Season PG experiment	Closed	
Reed, Bonnie	Bonnie to provide AWC proposal to Jim	Closed	Done
Reed, Bonnie	Bonnie to sent HWT mid- and final- report to Jim (and AK)	Closed	Done
Feltz, Wayne	Wayne to talk to Bob Kuligowski about enhanced hydro product details	Closed	Done
Gerth, Jordan	Jordan and Bob Aune to work with Bob Ballard on CRAS	Closed	Done

OCONUS Action Items (3 of 3)

Actionee	Action Item	Status	Detailed Status
Schmit, Tim	Tim Schmit to put together GOES Sounder boundaries discussion	Open	This one will have to wait at least until the NWS is getting the current GOES Sounder data into their system. Then I think it's between AK and HI on if the non-CONUS GOES-west sounder sector can cover less of the area in the northern part of that sector. I'm sure it still needs to meet the CONUS sector on the East.
Schmit, Tim	Jordan and Tim to get GOES Sounder derived product images into AWIPS (Jordan and Tim)	Open	This is in-progress, but it's more than Tim and Jordan working on it. The NWS (J. Heil) supplied the needed headers. NESDIS (B. Hughes) will task the scope out. Any operational implementation may have to wait until the operational thaw in April. Both NWS and NESDIS (J. Heil and J. Paquette) according to get this request into the SPSRB system.
Sjoberg, Bill	Bill Sjoberg to take the lead in getting clear statement to JPSS on the use of NPP and JPSS data in a proving ground environment	Open	OBE, Mitch Goldberg is JPSS PG Lead
Hufford, Gary Jedlovec, Gary	Gary Hufford and Gary Jedlovec to evaluate collaboration tool and provide recommendation post evaluation	Open	Will hear recommendations at OCONUS 2011 meeting
Hufford, Gary	Gary Hufford to work with Akapo to get data into American Samoa	Open	
Sjoberg, Bill	Bill Sjoberg to talk to Pete Wilczynski about Satellite data coverage	Open	

PG Visiting Scientists Satellite Champions

NWS Center	Visiting Scientist/PI	CI	NOAA Host
SPC/HWT	Chris Siewert, K. Kuhlman	OU-CIMMS	Russ Schneider
OPC, HPC, SAB	Michael Follmer, S. Rudlosky	CICS	J. Sienkiewicz, E. Danaher, J. Kibler
AWC	new hire	UW-CIMSS	David Bright
NWS Training Center	new hire	UW-CIMSS	John Ogren
Pac Region	S. Businger/new hire	UH-JIMAR	Bill Ward
AK Region	T. Heinrichs	UAF-CIFAR	Gary Hufford
NWS	R. Brummer	STAR/CSU-CIRA	Various
NWS	W. Feltz	STAR/UW-CIMSS	Various
NWS	G. Jedlovec	NASA-SPoRT	Various
SwPC	W. Denig	NGDC/CIRES	Rodney Viereck
NWS	A. Huff/ S. Kondragunta/R. Hoff	STAR/UMBC	Ivanka Stajner
